# Introduction

# **To Competitive Events**

Family, Career and Community Leaders of America (FCCLA) is pleased to provide a comprehensive Competitive Events Guide for use by staff, state and chapter advisers, and members.

FCCLA's competitive events offer the following annual activities:

- FCCLA/LifeSmarts Knowledge Bowl is a three-level, team competition that challenges students' knowledge of all aspects of Family and Consumer Sciences and FCCLA.
- The Knowledge Matters FCCLA Virtual Business Challenge Personal Finance contest encourages members to test their skills in personal finance, using a competition version of the Virtual Business – Personal Finance classroom software.
- **Skill Demonstration Events** provide opportunities for members to demonstrate college and career-ready skills in Family and Consumer Sciences and related occupations. Competitions take place at National Cluster Meetings.
- STAR Events (Students Taking Action with Recognition) recognize members for proficiency and achievement in chapter and individual projects, leadership skills, and career preparation. STAR Events offer individual skill development and application of learning through cooperative, individualized, and competitive activities.

Competitive events promote the FCCLA Mission to focus on the multiple roles of family member, wage earner, and community leader. Each event and activity is designed to help members develop specific lifetime skills in character development, creative and critical thinking, interpersonal communication, practical knowledge, and career preparation.

Competitive events provide additional opportunities to showcase college and career-ready knowledge, skills and abilities; promote the FCCLA chapter as an integral part of the Family and Consumer Sciences education program; and to connect with peers and the community.

Please note that words and terms in italics are defined in the glossary, located at the end of this document.

# FCCLA/LifeSmarts **Knowledge Bowl**

2018–2019 Competition Guidelines

The Ultimate Leadership Experience and The Ultimate Consumer Challenge - Combined!

This three-level team competition tests FCCLA members' knowledge in the six content areas:

- 1. Personal Finance
- 2. Consumer Rights & Responsibilities (to include Family, Career & Community Studies)
- 3. Technology (to include Fashion & Housing Design)
- 4. Health & Safety (to include Food Science & Nutrition and Early Childhood & Human Development)
- 5. Environment (to include Hospitality, Tourism & Recreation)
- 6. FCCLA Knowledge

Questions come from a variety of sources. Preparation resources include resources found at www.lifesmarts.org, and in Family and Consumer Sciences textbooks, reference guides, content area websites, the FCCLA website, and other local or online resources.

All Level I-3 teams should be comprised of five affiliated FCCLA members (affiliated at both the state and national level in order to register to compete) from the same chapter. Chapters may have more than one team. Team members may be mixed in grade level, affiliation type, and FCS course background. All level I-3 competitors must be registered for the conference at which their competition level takes place. Conference name tags must be worn at all times during the competition. Teams with less than five members are ineligible to compete.

### LEVEL I — Part 1 - TeamSmarts Quiz and Online Qualification

### September 19 – October 31

In order to compete, teams must be registered at www.LifeSmarts.org and be registered to attend the National Cluster Meeting. An unlimited number of teams may register with LifeSmarts, but team registration for the National Cluster Meeting is limited to the first 40 teams per National Cluster Meeting location. All teams competing at the National Cluster Meetings must complete this round. If less than five members take the TeamSmarts Quiz, the team is ineligible to continue in competition. Team members may not compete in another competitive event at the National Cluster Meeting.

The TeamSmarts Quiz consists of 100 questions from the following content areas:

- 1. Personal Finance
- 2. Consumer Rights & Responsibilities (to include Family, Career & Community Studies)
- 3. Technology (to include Fashion & Housing Design)
- 4. Health & Safety (to include Food Science & Nutrition and Early Childhood & Human Development)
- 5. Environment (to include Hospitality, Tourism & Recreation)

Following the instructions at <a href="www.LifeSmarts.org">www.LifeSmarts.org</a> the adviser registers and creates the FCCLA team. Students register as directed. The adviser must indicate one student to be the team's captain. The TeamSmarts quiz is only available through the team captain's login.

The scores from the TeamSmarts round will be combined with scores from the Quiz Bee round in Level II competition at the National Cluster Meeting to determine team placement and live competition round qualifying.

### LEVEL I - Part 2 - National Cluster Meeting

### November

All participants must stay at one of the official conference hotels. Hotel reservations will be verified prior to the meeting. An unlimited number of teams may register with LifeSmarts, but team registration for the National Cluster Meeting is limited to the first 40 teams per National Cluster Meeting location.

### **Quiz Bee**

On location, scores from the TeamSmarts quiz will be combined with the scores from the Quiz Bee competition. The Quiz Bee competition consists of participants divided into each of the five competition categories. Each participant is guaranteed to be asked a minimum of 10 questions in their topic category, in a "spelling bee" style format. Two points are awarded for each correct answer, up to twenty (20) points per participant, or 100 points per team. No spectators are allowed for the Quiz Bee competition.

Scores from the TeamSmarts quiz and the Quiz Bee competition are combined. The top sixteen (16) teams advance to the live competition rounds at the National Cluster Meeting. Teams are seeded into four groups of four teams, based on their combined scores.

### **Pool Play**

Teams are assigned to one of four competition pools, and compete in this pool for the remainder of the competition. Teams compete in a round robin tournament (teams take turns playing each other), with up to six matches total. Scores are cumulative. The top-scoring team in each pool automatically qualifies for Level III competition at the National Leadership Conference. The four second-place teams pair off to compete in one final match, and the two winners qualify for Level III competition. A total of six (6) teams may qualify from each of the National Cluster Meeting locations. Spectators are allowed during Pool Play competition.

If an odd- number of teams are competing, byes will go to the highest seeded team(s).

All rooms will use the same questions, and teams will stay in the same room for the duration of pool play. Level II rounds consist of two parts—Head-to-Head Individual Questions as well as Team Questions. In the Head-to-Head round, one multiple choice question from Categories 1-5 will be asked, with up to two open-ended bonus questions asked after each correct answer. Participants should sit in order, based upon their individual topic category. In the Team Questions part of the round, all questions are open ended and randomly assorted. Three questions will be asked in each of the categories except FCCLA Knowledge, which will have one question per round.

During the Head-to-Head round, questions will be asked in the following order:

- 1. Personal Finance
- 2. Consumer Rights & Responsibilities (to include Family, Career & Community Studies)
- 3. Technology (to include Fashion & Housing Design)
- 4. Health & Safety (to include Food Science & Nutrition and Early Childhood & Human Development)
- 5. Environment (to include Hospitality, Tourism & Recreation)

During the Team round, questions are open-ended and randomly assorted. Of the 16 Team questions, there are guaranteed to be 3 questions from Categories 1-5 and 1 question from Category 6, FCCLA Knowledge. Anyone may buzz in to answer a Team

question, unless someone from that team has already given an incorrect response. If a participant gives an incorrect answer, the question is reread and asked of the other team.

Teams are guaranteed to play at least 2 matches in a pool of 3 teams, and guaranteed 3 matches in a pool of 4 teams. Matches in each pool will occur simultaneously in different rooms, or as space allows with a holding room. All rooms will use the same questions. Since teams are scored based on the total points accumulated over all the matches (rather than a win-loss record) pool play matches may end in a draw.

Once all pool play matches have finished, each team will have the following scores added together to form their final Cluster Cumulative Score: TeamSmarts Quiz, Quiz Bee, and the 2 or 3 matches played in Pool Play. The team in each pool with the highest Cluster Cumulative Score will automatically advance to Level III, which will take place at the National Leadership Conference.

The teams with the second highest scores in each pool will be paired into a final play-off match, where cumulative scores will have no impact. The team with the higher score wins and will advance to Level III.

TIES: Ties will only be broken between teams in the same pool, and only for 1<sup>st</sup> or 2<sup>nd</sup> place in the pool. The first tie-breaker will be determined by total points gained during the pool play buzzer matches. The second tie-breaker, if needed, will be determined by who won during the head-to-head round between the tied teams.

Should any ties remain, the final tiebreaker will go to the team with the highest level I score and the lowest time.

The 4 teams that placed second in their pools will be paired into a final play-off match. Play will follow the same rules as other buzzer matches (Head-to-Head followed by Team questions). If the score is tied at the end of the play-off match, a tie-breaker must be used. Three additional Team questions will be asked, with each question worth one point. The team with the highest score after 3 questions wins. If there is still a tie, a sudden-death question will be asked.

The six advancing teams will compete in Level III, which will take place at the following National Leadership Conference. The teams who did not advance in Level I competition are still eligible to qualify for Level III through the "Second Chance Round" in Level II.

### Level II - Online "Second Chance Round" Qualification

### January 1 – January 31

### National TeamSmarts Quiz as "Second Chance Round"

Teams who were registered for the National Cluster Meeting, but did not qualify for the National Leadership Conference (including those that were not among the first 40 to register for Level I) have a second chance to earn one of four qualifying spots for the Level III National Leadership Conference competition. Teams will take the National TeamSmarts quiz in January, similar in format to the Level I TeamSmarts quiz teams took in the fall, but with new questions. Teams that registered online for Level I competition will not have to re-register. The Second Chance "FCCLA TeamSmarts Quiz" will automatically appear in the team captain's page.

The four top-scoring teams will advance to Level III competition, and will carry this score to the National Leadership Conference.

The 12 winning teams from Level I who qualified for Level III competition at a National Cluster Meeting must also take the National LifeSmarts TeamSmarts quiz, as this will be the teams' first event in the Level III competition at National Leadership Conference.

### National TeamSmarts Quiz as "National LifeSmarts Championship Qualifier"

Regardless of Level I or Level II competition status, any number of FCCLA teams may take the National TeamSmarts Quiz in January to qualify for LifeSmarts' National Championships. At least one FCCLA team will earn an invitation to compete at the National LifeSmarts Championship in Orlando, Florida, April 13-16, 2019, to compete against championships teams from across the United States. The winning team will receive a stipend to help cover the cost of travel and accommodations to that event.

### LEVEL III—Championship at National Leadership Conference

### July

Participants must be registered for the week of the National Leadership Conference and must stay at one of the official conference hotels. Hotel reservations will be verified prior to the meeting. Team members may not compete in another competitive event at the National Leadership Conference.

16 teams will qualify for the National Championship – 12 teams from National Cluster Meetings and 4 teams from the "Second Chance Round" in January. Alternates will be selected based upon scores from the "Second Chance Round" TeamSmarts quiz (for example, the team with the 5<sup>th</sup> highest score on the quiz will be the 1<sup>st</sup> alternate, continuing down the rankings until all alternate positions are filled.) Teams must confirm National Championship participation by April 1.

### **Orientation and Pool Play**

Teams are assigned to one of four competition pools based upon the winter TeamSmarts scores. Each pool will have four teams and each team will play three matches. The winter TeamSmarts score plus the scores from the three matches will be combined to determine the top team from each pool. Pools will play simultaneously and the questions for each round will be the same in each pool. As space allows, teams may have to wait in a holding room.

Once all pool play matches have finished, each team will have the following scores added together to form their final NLC Cumulative Score: TeamSmarts Quiz (from January), and the three matches played in Pool Play. The team in each pool with the highest NLC Cumulative Score will automatically advance to the knockout bracket.

The four remaining teams with the highest NLC Cumulative Score will also advance to the knockout bracket. It is possible for more than one non-winning team from the same pool to qualify.

Cumulative score tiebreakers will be similar to the tiebreakers used during Level II Pool Play at Cluster Meeting. First, ties for 1st place in each pool must be broken before ties for the 4 non-winner spots are broken. If teams are in the same pool, the tiebreaker will be determined by total points gained during the total pool play buzzer matches. The second tie-breaker, if needed, will be determined by who won the head-to-head round between tied teams.

For ties between teams in different pools, only the first tie-breaker will apply. In the event that competition pools are of different sizes, the second tiebreaker will be the highest average points per match.

Should any ties remain, the final tiebreaker will go to the team with the highest Level II score (Online TeamSmarts quiz from January) and lowest time.

### **Knockout Bracket**

The four pool winners and the next four top-scoring teams will be seeded into an 8-team single elimination bracket. Winners advance through the bracket until the top two finalists are determined. The top two teams will compete in one final match during a general session to determine first and second place. The remaining teams will be ranked based on cumulative scores.

Level III rounds are similar in format to Level II rounds. Each round will consist of two parts — Head-to-Head Individual Questions as well as Team Questions. In the Head-to-Head round, one multiple choice question from Categories 1-5 will be asked, with up to two open-ended bonus questions asked after each correct answer. Participants should sit in order, based upon their individual topic category. In the Team Questions part of the round, all questions are open ended and randomly assorted. Three questions will be asked in each of the categories except FCCLA Knowledge, which will have one question per round.

During the Head-to-Head round, questions will be asked in the following order:

- 1. Personal Finance
- 2. Consumer Rights & Responsibilities (to include Family, Career & Community Studies)
- 3. Technology (to include Fashion & Housing Design)
- 4. Health & Safety (to include Food Science & Nutrition and Early Childhood & Human Development)
- 5. Environment (to include Hospitality, Tourism & Recreation)

During the Team round, questions are open-ended and randomly assorted. Of the 16 Team questions, there are guaranteed to be 3 questions from Categories 1-5 and 1 question from Category 6, FCCLA Knowledge. Anyone may buzz in to answer a Team Question, unless someone from that team has already given an incorrect response. If a participant gives an incorrect answer, the question is reread and asked to the other team.

### **Buzzer Round Rules of Play**

### **Head-to-Head Individual Questions Rules**

Questions in the head-to-head individual part of the round are multiple choice. Each team member is assigned a number corresponding to the category he or she has selected as their focus topic.

- 1. Personal Finance
- 2. Consumer Rights & Responsibilities (to include Family, Career & Community Studies)
- 3. Technology (to include Fashion & Housing Design)
- 4. Health & Safety (to include Food Science & Nutrition and Early Childhood & Human Development)
- 5. Environment (to include Hospitality, Tourism & Recreation)

These questions are asked only to the player on each team with the corresponding number. After the question and answer choices are read to team members #1, whichever individual buzzes in first has 10 seconds to respond. The individual cannot confer with team members. Individuals may give the full answer or the letter (a, b, or c) associated with the answer. If the player gives a correct answer, his or her team is awarded 5 points, and the moderator will ask up to two additional bonus questions for that individual. A minimum of 5 and a maximum of 15 questions will be asked in this round.

If the individual who has buzzed in cannot answer in the time allowed, or gives an incorrect answer, the opposing individual team member has 10 seconds to provide an answer.

If a member buzzes in before the entire question is read, the moderator will stop reading the question or answer choices. The individual must give an answer within 10 seconds. If the answer is incorrect, the moderator will re-read the question and answer choices to the corresponding player on the opposing team. He or she will have 10 seconds to buzz in and provide a response.

If neither individual buzzes in within 10 seconds, or both members give incorrect answers, the moderator will give the correct answer.

If a player correctly answers the multiple-choice question, that player will be asked an open-ended follow-up question. If the follow-up question is answered correctly, then a second open-ended follow-up question will be asked to that player. Up to two follow-up questions may be asked after each multiple-choice question.

If either follow-up question is not answered correctly, the question set ends. The corresponding player on the other team will not get an opportunity to answer the follow-up questions. Play continues with the next set, an Individual question asked to the players in the next position.

Each correct answer is worth 5 points. There is no deduction for incorrect answers.

This process is repeated for all team members.

Upon completion of the head-to-head part of the round, scores will be tabulated by the scorekeeper and announced by the moderator.

### **Team Questions Rules**

Questions in the team questions part of the round are open ended. The moderator will ask a question, and the first person to hit his or her button will have the opportunity to answer. These questions are open to all players on the team, though only one player per team may buzz in to answer each question.

A player may buzz in before the entire question is read. If this happens, the moderator will stop reading the question and will call on the player who buzzed in. The team member who buzzed in has 10 seconds to answer the question. The team may confer both orally and in writing until a team member buzzes in. Once the team has buzzed in, conferring must stop. Only the team member who buzzed in will be allowed to answer the question.

If an incorrect answer is given, the moderator will begin re-reading the question, and members from the other team may buzz in at any time.

If no one buzzes in within 10 seconds after the question has been read, or both teams give incorrect answers, the moderator will give the correct answer.

Each correct answer is worth 10 points. There is no deduction for incorrect answers.

This process will continue through all 16 open ended questions. Upon completion of the team questions, scores will be tabulated and announced by the scorekeeper and moderator. If there is a winner, the winner will be announced. If there is a tie that must be broken, tie breaker question(s) will be read.

### **Tie Breaker Round Rules**

Tie breaker questions are open-ended, and are randomly selected from the six topic categories. Each correct answer is worth one point. There is no deduction for incorrect answers. The first team that buzzes in will have 10 seconds to answer. The team that wins the best of three tie breaker questions will be declared the winner. If there is still a tie after a round of three tie breaker questions, one "sudden death" tie breaker question will be used.

### **General Rules**

### **Acceptability of Answers**

Only the first answer from the team member who buzzes in and is recognized will be accepted. Only one team member may buzz in per question. The moderator will determine if the answer given by the competitor matches the correct answer. If there is a question about the acceptability of the answer, the moderator may consult with the room judge.

### **Appeals**

During the Team round of a buzzer match, a team may appeal a response ruled incorrect by raising a Challenge card, which requests that question be thrown out and a new question asked in its place. The team may only issue a Challenge when points are not awarded in response to an answer given by one of the team members. Challenges may not be issued once points have been awarded for the question. Teams may not challenge during the Head-to-Head round. Teams may not challenge a response given by the opposing team.

The Challenge card must be raised before play moves on (either before the question is re-read for the other team, or if the other team has given a response, before the next question in the match is read). Any player on the team may issue the challenge.

Once the challenged question is thrown out, the new question is open only to the teams who were eligible to answer the question when the Challenge was issued.

Each team is awarded two Challenge cards for each level of competition (2 cards at Cluster Meeting and 2 cards at NLC). Unused Challenge cards do not carry over to the next level of competition.

### Consultation

Team members may confer with one another both orally and in writing until a team member buzzes in. From the time a competitor buzzes in until the time the moderator announces whether the answer is correct or incorrect, no one on that team should speak or write notes to another. If consultation continues while a team member has buzzed in, his/her answer will not be accepted even if it is correct. Team members of the opposing team may consult while a competitor on the other team is answering the question.

### **Dress Code**

Participants should follow the approved FCCLA conference dress code for participation in all levels of competition.

### Moderator/Judge/Question Error

If the moderator misspeaks or misreads a question, but catches the mistake prior to either team buzzing in, they may repeat the question correctly and the time for answering will begin again at 10 seconds.

The judge and/or moderator may decide that a replacement question should be used if an answer is prematurely given by the moderator, judge, or spectator, or if the way a question is read is deemed unfair for either or both teams. Replacement questions will not be used if a competitor reveals the correct answer out of turn or if a competitor or spectator disagrees with the determination of the moderator and judge.

### **Repeating of Questions**

Individual team members may request a multiple-choice question to be repeated during the Head- to-Head Individual Round. No open-ended questions will be repeated once they have been read in their entirety. If there is an issue in which the moderator feels the question should be repeated (noise interference or equipment problem) they may repeat the question at their discretion.

### **Spectator/Participant Conduct and Sportsmanship**

When competition is open to spectators (students, advisers, chaperones, alumni, and other conference attendees), spectators are not allowed to enter or leave the competition room during play. Spectators are prohibited from cheering, visual signaling, audible conversations, and the use of cell phones during competition. Any spectators who disrupt the round in any way or are thought to be communicating with competitors will be asked to leave by the room judge or moderator. The room judge and moderator have the authority to control the competition atmosphere within their room.

Disputes concerning their judgment should be directed to the LifeSmart staff, Competitive Events Manager or the on-site national staff person who is overseeing the competition.

Good sportsmanship is expected of all participants, advisers, chapter members, and other spectators.

Poor sportsmanship on the part of any team member or their supporters may result in disqualification. Any use of extremely negative behavior (such as the use of profanity or yelling) will result in immediate disqualification of the team.

No videotaping, audio recording, or photography is allowed during live competition without prior approval of FCCLA.

### Substitution

Substitution of team members between Level II and Level III will be allowed. Substitutions must be made prior to June 1. Substituted competitors must be affiliated members of the same FCCLA chapter to qualify.

Teams will be sent a confirmation of their Level III participation via email by March 1. Any changes made to the composition of a Level III team must be made in writing by the chapter adviser or team captain to competitive events@fcclainc.org by June 1. Changes may be made any time between December 1 and June 1 of the current school year.

### **Team Captain**

Each team should select one of its members to serve as the team captain. This member will be responsible for picking up team materials. The team captain will be indicated on the registration form and will be designated on their place card.

### **Team Holding Room**

All teams in Level I and III are required to report at a designated time, and may be required to remain in a holding room when not competing. Failure to report to the holding room prior to the start of the first round of competition will result in a team receiving an automatic loss in the first round. Teams are disqualified if not in the holding room by the time the first round of competition is completed. Teams may utilize printed study material. The use of cell phones, or other electronic devices which may record, publish or receive information are prohibited.

### **Unanswered Questions**

If a question is not answered by either team, no points will be awarded or lost and no replacement question will be given. The moderator will give the correct answer and move on to the next question.

### **Writing Instruments**

Paper and pencils for each competitor will be provided by FCCLA. Competitors will not be allowed to bring any writing tools or paper into the competition room.

# FCCLA/Knowledge Matters Virtual Business Challenge -Personal Finance

### **ABOUT**

The FCCLA Virtual Business Challenge-Personal Finance contest encourages FCCLA members to test their skills in personal finance. This competition is a free event for affiliated FCCLA members. Participating members utilize a competition version of the Virtual Business – Personal Finance classroom software. Virtual Business simulations are currently being used in over 8,000 classrooms in 50 states and Canada. Virtual Business is a software program that was created by Knowledge Matters. The initial feasibility research was funded by a U.S. Department of Education SBIR Contract.

### COMPETITION

The FCCLA Virtual Business Challenge consists of two competition rounds. Registration begins October 23, 2018. Round One will begin on October 23, 2018 at 10AM EST and will end on November 16, 2018 at 5PM EST. Round Two will begin on February 4, 2019 at 10AM EST and will end on March 1, 2019, at 5PM EST. Teams may participate in one or both rounds. The National Championship Round will be held online from March 25, 2019 – April 5, 2019 and will only be open to qualifying teams.

The Challenge will focus upon different concepts found within the simulation. FCCLA members will not be able to control every concept found under the Actions Menu. Teams are only able to manipulate the actions enabled for that specific Challenge. All other concepts will be set adequately and controlled for the teams. Assignments explaining Challenge goals and objectives will be available within the competition files.

The Challenge competition file will only be available from the dates as listed above. During the qualifying rounds, participants may run through the competition files as many times as they wish during the competition period. The competition file is complete once teams have run the file for two virtual years. At this point, the team's score will be automatically submitted to the Knowledge Matters' website.

After uploading a score, teams may visit the ranking's page in order to see where they rank nationally and by state. Teams may upload as many scores as they wish because Knowledge Matters will always rank teams based upon their best score. At the completion of each challenge, the top nationally ranked teams will receive website recognition. Top teams from each challenge will compete in a final online round. The winning teams of the National Championship Round Challenge will receive National Leadership Conference travel awards of \$1000 (1st place), \$500 (2nd place) and \$250 (3rd place) to attend the National Leadership Conference and participate in the Knowledge Matters exhibit to demonstrate the simulation and assist with simulation demonstrations.

The Challenge will start at 10:00AM EST on the start date for each round. No score submission will be accepted after 5:00PM EST on the last day of the Challenge round. Each file is time and date stamped upon receipt for validation. Files will be automatically scored, ranked and posted under the ranking's page.

### FCCLA RULES - VIRTUAL BUSINESS CHALLENGE-PERSONAL FINANCE

**ELIGIBILITY**: Only affiliated FCCLA members in grades 9-12 are eligible. Students must be a paid, affiliated member prior to the submission of any Virtual Business Challenge-Personal Finance file to Knowledge Matters. An FCCLA chapter may have as many teams as it can support according to the team membership rules. All membership questions will be handled by FCCLA. Chapters may participate in the FCCLA Virtual Business Challenge-Personal Finance during Round One (October 23-November 16, 2018) and/or Round Two (February 4 – March 1, 2019).

TEAM MEMBERSHIP: Entries may be created by an individual member or by a team, not to exceed three (3) members. A team member cannot be on more than one team at a time. No additional team members may be added once a team has registered. All rankings and prizes are based on the team and not the individual. Members are unable to participate in any other National Leadership Conference competitive event (STAR Event or FCCLA/LifeSmarts Knowledge Bowl) if they have placed 1st, 2nd, or 3rd in the National Championship Round. All rankings and prizes are based on the team and not the individual.

If a team member drops off a team or a team is to be dissolved, an email from the Team's FCCLA adviser acknowledging the removal must be sent to VBCCentral@KnowledgeMatters.com stating the team name and the team member(s) to be removed. An acknowledgment from Knowledge Matters confirming the team member update will be sent back to the team's FCCLA adviser. If this acknowledgment is not received, it will be the team's responsibility to resubmit the request via the team's adviser. Once the acknowledgment is received, the individual is free to register a new team. All maintenance and compliance monitoring of the teams will be the responsibility of the team's FCCLA adviser. FCCLA chapters may have as many teams as it can support according to the team Membership rules. Team names must generally adhere to FCCLA's code of ethics. Team names deemed inappropriate according to National FCCLA will have their team name changed to the name of their local chapter without notice. National FCCLA will have the ultimate authority to resolve team membership and name disputes.

CODE OF CONDUCT: Participants agree to compete by the Rules of Competition listed on this page. Participants further agree that all work submitted is work done by the participant or the participant's registered teammates. Participants understand that any attempt to hack or cheat the simulation is grounds for removal from the competition and possible further actions. Participants agree to refer any questions on what may constitute a cheat to Knowledge Matters for a decision.

All participants agree to be bound by the following Honor Code: I pledge that all work submitted is that of me or my teammates, solely. I have received no outside help with the challenge. I pledge not to hack or cheat in any way and agree to report others that I am aware of who hack or cheat.

Additionally, because the VBCs are interstate competitions for prize money, participants who hack or cheat may be subject to penalties under federal, state or local cybercrime or anti-hacking laws.

DRESS CODE: Team members participating in the Knowledge Matters Exhibit demonstration at the National Leadership Conference must wear clothing that meets the FCCLA Dress Code Policy, as published by FCCLA.

QUALIFIER RULES: The top eight nationally ranked teams from each qualifying round will qualify to compete in the National Championship Round. Teams that qualify during Round One may participate in Round Two, but will not be ranked in the Round Two challenge.

SCORES: A team's actual numeric score will not be posted on the ranking's page. Bars symbolizing a team's score will be posted instead. Numeric amounts will not be released during the Challenge periods.

In the event of a tie, the team with the earliest file submission will rank higher, so it is important to get your files ranked early in the Challenge.

# **Postsecondary Participation**

# In Competitive Events: STAR Events

Postsecondary FCCLA members in participating states will be eligible to compete in one of six STAR Events. Postsecondary members are eligible if they are enrolled in a postsecondary program (grades 13-16 in career and technical education centers, community colleges, and four-year colleges and universities).

All postsecondary STAR Events participants must be affiliated nationally. Dues must be paid by May 31 and sent to the national office for participants to be eligible for national STAR Events competition. Postsecondary members are not required to participate in state events prior to national STAR Events, though they must be selected by state-established procedures.

Each state may submit a maximum of three entries in each of the six events: Advocacy, Culinary Arts, Early Childhood Education, Fashion Design, Interior Design, and Teach and Train. Substitutes' names may be submitted until June 1 as long as eligibility requirements are met.

To participate in the national postsecondary STAR Events, participants are required to be registered for the full week during the National Leadership Conference, and pay a non-refundable STAR Events registration fee. Postsecondary participants must stay at one of the official convention hotels for the duration of their participation. Postsecondary participants must follow national rules for competition, or risk possible disqualification or loss of points. An individual postsecondary member may participate in only one STAR Event in any given year.

Individual events evaluate one member's performance. Team events evaluate several participants' performance as one entry. Team events may have one, two, or three participants from the same state.

All participants will be recognized during the STAR Events Recognition Session. All participants will receive a STAR Events medal, certificate of participation, and completed evaluations. Each entry is evaluated by a standard set of criteria.

Participating states with national STAR Events participants will be expected to provide volunteers to assist with Postsecondary STAR Events implementation. Qualified business and industry volunteers will be utilized as evaluators, with state volunteers serving as needed.

Unless otherwise specified, postsecondary participants will follow rules, procedures or guidelines as outlined in the FCCLA Competitive Events Guide, STAR Events section.

# **STAR Events**

## Students Taking Action with Recognition

STAR Events (Students Taking Action with Recognition) are competitive events in which members are recognized for proficiency and achievement in chapter and individual projects, leadership skills, and career preparation. STAR Events offer individual skill development and application of learning through the following activities:

- cooperative—teams work to accomplish specific goals
- individualized—an individual member works alone to accomplish specific goals
- competitive—individual or team performance is measured by an established set of criteria.

STAR Events promote the FCCLA Mission to focus on the multiple roles of family member, wage earner, and community leader. Each event is designed to help members develop specific lifetime skills in character development, creative and critical thinking, interpersonal communication, practical knowledge, and career preparation. The belief that everyone can be successful is the foundation of these events. Cooperation and competition are stressed in positive, constructive ways. Respect and interaction between youth and adults are fostered by establishing teams of adult and youth evaluators and event managers.

# **Policies**

## DISQUALIFICATION

Disqualification is unfortunate for everyone concerned—participants, advisers, and event managers. To avoid unnecessary disappointment, keep in mind the four causes for disqualification.

- 1. Failure to affiliate with national headquarters by May 31. Only affiliated members may register for national STAR Events. See "Membership" for details on affiliation, membership transfers, and late membership policies.
- 2. Failure to arrive in a timely manner for event presentation. Participants are encouraged to arrive 30 minutes before their scheduled event presentation and may be disqualified if more than 15 minutes late.
- 3. Participation of students or adults in behavior that negatively affects the management of STAR Events or failure to display a positive image of the FCCLA organization before, during, or after participation in STAR Events may result in disqualification of students or adults and/or eligibility of the student(s) and/or adults(s) for participation the following year. The penalty is determined by the Competitive Events Advisory Team.
- 4. Failure to register for the National Leadership Conference and appropriate hotel accommodations. All participants must be registered for the full week during the National Leadership Conference and to stay at one of the official hotels. STAR Events participants attending the National Leadership Conference and not staying at one of the official convention hotels will not be permitted to compete in national STAR Events.

## **DRESS POLICY**

Student dress should contribute to the positive, professional image of FCCLA. STAR Events participants are expected to adhere to the published conference dress code for all general sessions, workshops, onsite event orientations (if offered) and the National STAR Events Recognition Session(s). STAR Events Recognition Session exception—Culinary Arts participants are welcome to wear chef's attire during the STAR Events Recognition Sessions. For participation in competition, follow event specifications for dress, and wear appropriate clothing for the nature of the presentation. Unless otherwise specified, appropriate clothing in events which do not allow costumes includes professional attire (any appropriate colors) or the official FCCLA blazer/uniform meeting the National Leadership Conference dress code. If attending conference activities prior to or immediately after a STAR Events presentation, be prepared to change into clothing that meets the conference dress code.

## **EVENT DESCRIPTION AND CATEGORIES**

Individual events evaluate one member's performance. Team events evaluate several participants' or a chapter's performance as one entry. Team events may have one, two, or three participants from the same chapter, with the exception of Culinary Arts, which requires only that students be from the same state and Parliamentary Procedure, which may have four to eight participants from the same chapter.

An event category is determined by the participant's current or previous enrollment in Family and Consumer Sciences coursework or a Career Cluster class/course that is taught or could be taught by a person approved by the state education system for teaching Family and Consumer Sciences courses or content areas. Entry into a particular category is determined by affiliation with FCCLA, membership designation of either comprehensive or occupational as defined below, and participant's grade in school during the school year preceding the National Leadership Conference. Any change in membership status must be reported by the May 31 affiliation deadline.

Event categories are defined as:

- Junior—FCCLA chapter members through grade 9
- Senior—FCCLA chapter members in grades 10-12; who are identified as comprehensive members on the national affiliation
- Occupational FCCLA chapter members in grades 10-12; who have been or are currently enrolled in occupational Family and Consumer Sciences coursework; and who are identified as occupational on the national affiliation form.
- A team composed of both junior (through grade 9) and senior (grades 10–12) comprehensive or occupational (grades 10-12) members must enter the senior category.

(continued next page)

- A team composed of both senior (grades 10-12) comprehensive and occupational (grades 10-12) members must enter the senior category.
- A team composed of both junior (through grade 9) and occupational (grades 10-12) members must enter the senior category.
- Team events with only senior (grades 10-12) comprehensive and occupational (grades 10-12) categories may not include members through grade 9.
- Postsecondary members are eligible if they are enrolled in a postsecondary program (grades 13–16 in career and technical education centers, community colleges, and four-year colleges and universities).

### **MEMBERSHIP**

A student is not considered an affiliated FCCLA member at any level (local, state, and/or national) until all membership dues are received at national headquarters. Only affiliated members are eligible to compete in any level of STAR Events. States should not allow members to participate in regional or state events unless national membership is verified. Note: Although the national membership deadline is May 31, states require earlier deadlines for competition. Verify all state deadlines with the state adviser.

Only affiliated members will be allowed to register for national STAR Events.

Participants must compete in the same membership category (comprehensive, occupational, or postsecondary) as indicated in the membership affiliation system. Membership transfers may be needed for participants who have transferred in or out of an occupational program, are transferring chapters, have graduated and are transferring to a postsecondary chapter, or were otherwise affiliated incorrectly. To change membership status within the affiliation system, please contact the state adviser.

In addition to membership deadlines are STAR Events registration deadlines. Please ensure that all registrations are submitted in a timely manner to avoid disqualification or late fees at the regional, state, and national levels.

### STATE SELECTION PROCEDURES

Members are not required to participate in state events prior to national STAR Events, though they must be selected by stateestablished procedures.

## **Eligibility and General Rules for All Levels of Competition**

- An individual member may participate in only one national STAR Event in any given year. Participation is open to any nationally affiliated FCCLA chapter member. Events may have additional eligibility requirements. States may limit the number of times a member may compete in an event; please check with the state adviser.
- 2. Participants must follow national rules for competition, or risk possible disgualification or loss of points. If national rules vary from state event rules, entries need to be changed to comply with national rules.
- 3. All STAR Events projects must be developed and completed during a one-year span beginning July 1 and ending June 30 of the school year before the National Leadership Conference.
- 4. All STAR Events projects must be planned and prepared by the participant(s) only. Supporting resources are acceptable as long as participants are coordinating their use and resources are cited appropriately verbally and/or in print during the presentation to avoid false credit for unoriginal or non-participant work. Participants are encouraged to use original materials, items licensed for reuse, or items in which copyright permission has been granted.
- 5. State and chapter advisers should ensure that identical presentations of the same project are not entered into STAR Events multiple years.
- 6. Participants are not allowed to distribute any materials to the evaluators unless the event rules specifically allow it. Evaluators are not allowed to keep any items given to them by STAR Events participants.
- 7. No projects can be entered in more than one category of a single event, or in more than one event. However, projects entered in any event may be included in the Chapter in Review events.
- 8. Chapters are allowed to enter only one entry in Chapter in Review Display and one entry in Chapter in Review Portfolio per category.
- 9. Chapters are allowed to enter only one entry in FCCLA Chapter Website.
- 10. Spectators are not allowed to observe any portion of any STAR Event. Videotaping and/or audio recording of events is not allowed. \*Exception: Media and Business & Industry partners may be escorted into events with prior approval and arrangements made through national headquarters and the Competitive Events Advisory Team. States may set policies for exceptions on the state level.
- 11. Participants are to maintain a professional appearance and attitude during all STAR Events activities.
- 12. Participants are responsible for their own event materials, and may not have others assist them with event setup, including moving items into the competition area. Any items left behind are not the responsibility of FCCLA and may be discarded.
- 13. STAR Events resources (topics, scenarios, templates, etc.) can be found online at http://fcclainc.org/programs/resources.php. Look for this icon next to events which have resources on the FCCLA National Website.
- 14. For Fashion Construction, Fashion Design, and Recycle and Redesign events lingerie and swimsuits are not allowed. Clothing that does not meet acceptable standards of modesty/ appropriateness for a school function or setting is prohibited.
- 15. If a participant fails to adhere to event guidelines or event definition, or prepares an item not based on the current event scenario, then the sample/display/project is ineligible for evaluation. The participant will still be able to compete with an oral presentation if they choose to do so, and will only be scored on the oral presentation.
- 16. Participants may present in front, behind, or beside the designated table or space. Participants may not place items on the consultant or evaluator tables.
- 17. All materials on displays must be placed on a clearly defined presentation surface. Displays with a clearly defined front presentation surface (such as tri-fold boards) may not have items on the back of the board, as consultants/evaluators would not be expected to look behind a display for project components. Displays with multiple presentation sides may have materials on all clearly defined presentation surfaces. All materials must be easily viewed, accessible, and legible.
- 18. No live animals or people can be used as props or visuals. Only registered event participants may present in competition.

## **Event Management Information**

Many individuals are needed to assist in the management of STAR Events. Both student members and adults play an important role in the success of the events. Throughout the events, cooperation and respect between youth and adults is encouraged and fostered by providing individuals the opportunity to work in youth/adult teams. The belief that youth are capable of assuming important roles has been the key to the success of this system. Specific management responsibilities are found in the STAR Events Management Manual and will be available prior to the event.

### Event volunteers include:

- **Lead Coordinator**
- **Assistant Lead Coordinator**
- **Event Lead Consultants**
- **Event Assistant Lead Consultants**
- **Room Consultants**
- Evaluators Members, Subject Matter Experts (Advisers), Business, Industry, Community Members (Adults)

Evaluation teams are composed of youth and adults who are selected for their expertise in a specific event area. Business and industry and community members comprise some of the evaluators. Nominees should have previous experience participating in similar events or leadership experiences that qualify them for this responsibility. An orientation session for evaluators/room consultants is held prior to STAR Events, where the lead consultant will provide general STAR Events information, review the STAR Events philosophy, evaluation techniques, and clarify procedures, rules and rubrics.

## **Importance of Chapter Advisers Serving as Event Volunteers**

Chapter advisers are subject matter experts in both Family and Consumer Sciences and FCCLA. As subject matter experts, they serve an important role in providing essential information about FCCLA, Family and Consumer Sciences curriculum, and career and technical education to both members and other adult volunteers. Without chapter advisers serving as event volunteers (lead and assist lead consultants, room consultants, evaluators) evaluation teams may lack critical context and subject matter information that could negatively impact final scoring. At National Leadership Conference, all volunteers receive documentation of the hours devoted to competitive events. This documentation may be used by volunteers to assist with professional development certification, as allowed by local and/or state policies.

- 14. Can content pages have graphics or decorations? Yes, any page that does not specify to use plain paper may have graphic or decorative elements.
- 15. Is a font considered a graphic? If the font is a graphic font, then it is a graphic. Unless specified, fonts may be in any color.

The logos are encouraged but are not required.

- 18. How should we address budgets and evaluations when the project has not yet been completed at the time of regional/state competition? For presentations prior to National Leadership Conference, participants should give the anticipated numbers (budgets). Evaluation plans should be presented in detail (evaluation methods, instruments, anticipated outcomes). This information should be updated for projects advancing to national competition. Projects are to be developed and completed within a one-year span beginning July 1 and ending June 30 of the school year before National Leadership Conference.
- 19. Is a digital photo frame/iPad/etc. used to display photos, considered a photo album? If it is displaying multiple photos as a hardcopy album would, it would be considered a photo album.

- 23. Can we laminate pages? Yes, but all laminated pages must still meet any size requirements as stated in event guidelines.
- 24. If I have a multi-page document and place it in a sheet protector, is that counted as one content page? Multiple pages within a sheet protector will count as more than one page, unless the sheet protector is sealed and only one page is able to be viewed.
- 25. If there is an electrical outlet available, can we use it? FCCLA will not prevent a student from using an outlet (if allowed in event guidelines), but access is not provided. Competition setup (location of tables, chairs, display area) will not be adjusted to accommodate electrical outlet usage.

The forms are not to be included within a portfolio, or placed on a display. Forms are accepted at the time of completion, and not during or after the presentation. Only one form per entry (team or participant) is required. States may choose to require an onsite orientation or may develop an online orientation. Please confirm state procedures with your state adviser.
- 29. Are accommodations made for special needs students? Participants who require accommodation in their event should indicate a special needs request during the national event registration. A national staff member will contact the adviser to determine the best process for the participant. For regional/district/state competitions, please contact the state adviser.

## The FCCLA Planning Process for Individual and Team Action

The Planning Process is a decision-making tool that supports the organization's overall philosophy about youthcentered leadership and personal growth. It can be used to determine group action in a chapter or class or to plan individual projects.

Go to http://fcclainc.org/programs/resources.php to download a blank FCCLA Planning Process template. This template may be modified, but all headings must be used, in the correct order. The FCCLA logo, STAR Events logo, and Planning Process graphics are encouraged but not required.

### **IDENTIFY CONCERNS**

The circle represents a continuous flow of ideas and has no beginning or end. As a target, it symbolizes zeroing in on the one idea around which you would like to build a project.

- Brainstorm to generate ideas, or state the activity or problem you want to address if already determined.
- Evaluate your list and narrow it down to a workable idea or project that interests and concerns the majority or all of your members.

### **SET A GOAL**

The arrow stands for deciding which direction you will take. It points toward the goal or end result.

- Get a clear mental picture of what you want to accomplish, and write your ideas down as your goal.
- Make sure your goal is one that can be achieved and evaluated.
- Consider resources available to you.

### **FORM A PLAN**

The square represents the coming together of ideas—the who, what, where, when, and how of your plan.

- Decide what needs to be done to reach your goal.
- Figure out the who, what, where, when, and how.
- List the abilities, skills, and knowledge required on your part.
- List other available resources, such as people, places, publications, and funds.
- Make a workable timetable to keep track of your progress.
- List possible barriers you might face, and develop plans if necessary.
- Decide ways to recognize your accomplishments along the way.

### **ACT**

The different squares in this symbol represent the activities to be carried out to meet your goal. It represents acting on the plan.

- Carry out your group or individual plan.
- Use family and community members, advisers, committees, task forces, and advisory groups when needed.

## **FOLLOW UP**

The broken squares suggest examining the project piece by piece. This symbol also represents a "window" through which to review and evaluate the plan.

- Determine if your goal was met.
- List ways you would improve your project or plan for future reference.
- Share and publicize your efforts with others, including the media if appropriate.
- Recognize members and thank people involved with your project.

## **STAR Events Dates to Remember**

A student is not considered an affiliated FCCLA member at any level (local, state, and/or national) until all membership dues are received at national headquarters. Only affiliated members are eligible to compete in any levels of STAR Events. States should not allow members to participate in regional or state events unless national membership is verified. Note: In order to register for national STAR Events, members must be affiliated at the time of registration. Consult your state adviser to determine the state affiliation deadline for participation in STAR Events.

## **Specific Information for State Advisers**

FCCLA state advisers are key to the success of STAR Events. Although STAR Events are managed by the national organization, state advisers carry a major responsibility for preparing, selecting, and monitoring their state participation.

- 1. Ensure student success by following national event rules when developing state events.
- 2. Develop a plan for selecting STAR Events participants. Criteria should include:
  - Participant selection when state-level events do not designate a first, second, and third place
  - Participant selection in states where there are no state events
  - Selection of substitutes for regional, district, and state STAR Events
  - Method of breaking a tie between top-rated state event participants
  - Policy for STAR Events participants' travel to the National Leadership Conference
  - Notification of all local chapters regarding the above information.
- 3. Help participants avoid disqualification by checking their eligibility for the event before advancing them to national-level competition. It is extremely important that state advisers submit and approve only those students' names who have met all national rules. Screen applicants thoroughly. State advisers are directly responsible for screening since the national office lacks information to make these judgments. The number one concern is fairness, and state adviser commitment is essential to this goal. Careful supervision at the state level will eliminate the need for disqualification or loss of points at the national level.
- Notify participants, their advisers, and any chaperones of the STAR Events information posted online at www.fcclainc.org throughout the year. Specific information for National Leadership Conference participants is posted in June, containing important information participants must know about before arriving at the national conference.
- 5. Submit all national STAR Events qualifiers through the national affiliation/registration system. Ensure that all qualifiers are submitted in the correct event/category, and meet event eligibility requirements.
- Meet with national STAR Events participants prior to the National Leadership Conference and review national STAR Events rules and procedures to ensure successful transition from state to national competition. Inform participants of the Event Online Orientation requirements and the entire National Leadership Conference schedule.
- 7. State advisers are key in identifying qualified evaluators, room consultants, and event volunteers—both youth and adults. Because STAR Events operate on a limited budget, unpaid volunteers are essential. States are responsible for providing one evaluator and/or room consultant for every three event participants. Refer to the STAR Events Management Manual for evaluator's and room consultants' specific duties. Ensure volunteers fulfill their duties onsite.
- Enforce national policy on behavior at the national conference. (See Disqualification section.)
- 9. Approve any substitutions for STAR Events, as directed in the FCCLA Portal, if substitutes meet the event eligibility requirement and state selection policies, and is submitted prior to the substitution deadline.
- 10. Collect participant rubrics at the Competitive Events Headquarters following the STAR Events Recognition Sessions.

Each entry must complete and submit the STAR Events Online Orientation form to the event room consultant at the time of competition. Only one form per entry (team or participant) is required.

All rules apply even if the participant decides not to complete the orientation session. FCCLA does not assume responsibility for any problems resulting from participants who choose not to complete and document their participation.

## **Chapter Substitution Policy**

Once a chapter has registered a student as a National STAR Events participant, a substitution from that chapter is permitted in the case of a team event, but only if the substitute meets the eligibility requirements of that event. All substitutions must be approved by the state adviser. Substitutions are not permitted in individual events. Substitutions are not permitted after June 1 for National STAR Events.

States may determine substitution policies for STAR Events at the district, regional, or state levels.

## Supplies, Equipment and Electrical Access

Participants must bring all needed supplies with them to competition. Supplies will not be available from the National Leadership Conference Headquarters or Competitive Events Headquarters.

Access to an electrical outlet will not be provided unless required for a participant classified under the provisions of the Individuals with Disabilities Education Act. This request must be made during the national STAR Events registration process. Participants are encouraged to bring fully charged devices such as laptops, tablets, etc., to use for presentations, as allowed per event guidelines.

## STAR Events Registration Fees

Each participant in a team or individual event pays a fee to help cover STAR Events expenses — room rental, certificates, recognition session expenses, medals, and supplies. The national STAR Event participant fee is posted in the National Leadership Conference information, STAR Events fees are nonrefundable.

## **Competitive Events Advisory Team**

Resolution to situations not addressed in policies or in event guidelines will be determined in consultation between national FCCLA staff and members of the Competitive Events Advisory Team.

## **Dress Policy**

Refer to the Dress Policy on page 85 in the "Policies" section.

## NATIONAL STAR EVENTS TIE-BREAKER PROCEDURES

The following tie breakers will be used, if necessary, to help determine the overall winner in a particular event. If scores are tied so that a winner cannot be determined, the tie will be broken by the highest score on the first tie breaker (★). If those scores are tied, the second tie breaker will be used ( $\star\star$ ), followed by the third tie breaker ( $\star\star\star$ ). If those scores are also tied, it is up to the evaluators to make the final determination based on review of the product in the event (portfolio, display, sample, etc.) For events offering scholarships at the National Leadership Conference, no ties will be allowed. This document may be adapted, if desired, for use at the state level.

Fashion Design, an individual event, recognizes participants who apply fashion design skills learned in Family and Consumer Sciences courses to design and market clothing styles. Participants will develop a clothing label, research the intended audience, design the label's first 4-piece collection, and construct one collection sample using an original flat pattern designed by the participant. Students will exhibit knowledge of all the aspects that surround design, including design basics, fabric choice, and pricing. For competition, participants must prepare a portfolio, sample garment, and an oral presentation.

Coats & Clark is the official sponsor of the Fashion Design event.

### **2018-2019 Competition Topics and Resource Information**

As a response to many of life's stressors, many consumers reach for indulgent, nostalgic foods that remind them of a simpler time with no worries of whether a food is low calorie or particularly healthy. Indulgence foods, while not a staple in one's diet, do have a place since nearly everyone tends to eat them occasionally.

For the FCCLA Food Innovations STAR Event, participants will develop a food product to be marketed for sale to the consumer group of their choice.

**Junior Category** – Develop an indulgent appetizer. **Occupational Category** – Develop an indulgent main-course salad. **Senior Category** – Develop an indulgent dessert.

Life Event Planning is an individual or team event that recognizes participants who apply skills learned in Family and Consumer Sciences courses to manage the financial costs of an upcoming event. An upcoming event is defined as a planned event that is taking place during the 2018, 2019 or 2020 calendar years. Wedding planning is not an appropriate event topic unless the student or family member is engaged with a wedding date in 2018, 2019, or 2020. "Dream events" with no timeline are not allowed.

Examples of events include, but are not limited to:

- preparing to move into a dormitory room
- hosting a party or celebration
- operating a vehicle for one month
- taking a school or personal trip
- hosting a family reunion
- paying initial costs of a new job
- managing personal costs of attending the prom
- paying school expenses for one grade level.

Planning events for the FCCLA chapter, school, or other organizations are not appropriate for this event. Participants select an upcoming event in their lives, determine the amount they can budget for the event, and prepare in advance an event portfolio. At the event site, participants present the *portfolio* to the evaluators.

Recycle and Redesign is an individual event that recognizes participants who apply recycling and redesign skills learned in Family and Consumer Sciences courses and create a display using a sample of their skills. Participants select a used fashion, home, or other postconsumer item to recycle into a new product. Participants will create a brand new product, not simply embellish an old one. However, participants may use additional materials if needed to redesign and creatively embellish the new product. At the event site, participants set up their displays and present the results of their projects to evaluators.

1 🖳	Evidence of Online Project Summary Submission	Complete the online project summary form located on the "Surveys" tab of the FCCLA Portal, and include proof of submission in the <i>portfolio</i> .
1 to 2- 8 ½" x 11" pages	Sport and Training Summary Pages	Summarize the specific physical demands, training schedule, frequency and length of competitions, and general nutritional and hydration needs of student athletes competing in this sport.
1-8 ½" x 11" page	Student Athlete Demographic Page	Provide description of student athlete, including gender, first name, age, height, goal weight, and activity level. Include any specific health concerns (food preferences, food intolerances, dietary restrictions, physical disorders, cultural needs, etc.).
1-8½" x 11" page	Student Athlete Daily Schedule Page	Outline the typical daily schedule of the student athlete, to include school schedule, training schedule, sleep, and other responsibilities (work, volunteering, tutoring, etc.). Should not reflect a competition day.
1-8 ½" x 11" page	Works Cited/ <i>Bibliography</i>	Use MLA or APA citation style to cite all references. Resources should be <i>reliable</i> and <i>current</i> .

#### **Nutritional Plan and Management Tool**

The participant will develop a nutrition plan with specific, measurable, attainable, realistic, and timely goals; provide a nutritional evaluation, and present a management tool to be used by the student athlete.

Nutrition Plan Goals	Identify 3–5 goals the nutrition plan addresses, to include nutritional needs, hydration, and performance goals. In addition, identify if the plan is to maintain weight, encourage weight loss, or result in weight gain.
Nutrition and Hydration Plan	Participants will develop a three day nutritional plan to include two non-competition days and one competition day. The plan should include hydration, specific food items and quantities for meals and snacks, timing, and calculation of energy intake (calories in) and estimated energy output (calories out). Nutrition plans should avoid substances that may have a negative impact on performance.
	Each day should include breakfast, lunch, dinner, and snacks. The schedule of eating may be modified to meet the student athlete's schedule and any items from the student athlete interview. Participants should assume all meals are prepared at home, but not necessarily eaten at home. Meals should be planned to include cultural needs, health, balance, variety and timing of nutrient intake for optimum performance.
Nutritional Evaluation	Analyze each day of the nutritional plan using a nutrient analysis program of the participant's choice. Compare the nutritional analysis and the DRIs and RDAs for the student athlete. Make sure that the analysis meets the needs of the student athlete. Provide a rationale for any discrepancies.
Management Tool	Provide the student athlete with a suggested method to monitor and manage their nutritional plan and goals. This may involve technology (mobile applications, website tracking, etc.) or may be paper-pencil, stickers, etc. The management tool should meet the needs of the student athlete and be realistic given the student's daily schedule. The management tool can be commercially available or designed by the participant.
